

# Environmental Policy, Statement of Intent

PLY3, Dated: 8<sup>th</sup> June 2009 (Rev. C)

---

Morland Utilities Limited understand the requirements of the Environmental Protection Act and the Environmental Standard BS EN ISO 14001 and in particular the focus on the environmental effects and aspects of the companies activities.

Morland Utilities has a number of Environmental Objectives that enable the Company Goal to be achieved together with a commitment to continuous improvement and protecting the environment.

- Morland Utilities will review its activities, record aspects and effects from them and establish environmental targets to be met.
- Morland Utilities complete regular audits and reviews of its activities to ensure the companies environmental impacts are reduced to a minimum.
- Provide clear and concise understandable information to employees and sub-contractors on environmental matters.
- Have clear defined roles and responsibilities for each company position recorded upon Job Descriptions.
- Ensure that all employees have an understanding of the environment and know of the companies objectives and goals.
- Measurement of Environmental performance and investigation of shortfalls in Environmental Management.
- Incorporate Environmental Aspects into planning, organisation, control and review with reporting into all the companies activities.
- Reduce the usage of all raw materials, energies and supplies to a minimum.
- Manage all wastes, emissions and pollutions produced by the company to a minimum.

Morland Utilities Environmental Goal.

- Ensuring all employees work towards a common goal of reducing the companies impact on the environment.

This Environmental Policy Statement, Objectives and Goal are subject to regular formal review on a minimum of an annual basis.
